Sample Orders & Bulk Pricing

Order More. Reduce Your Per-Piece Cost.

We understand that buyers need to evaluate a product before committing to larger quantities. You can discuss sample production to assess the design, materials, construction, and finishing before proceeding with a bulk order.

Sample pricing may be higher on a per-piece basis because samples are produced in smaller quantities and may require individual preparation and customization.

Our proposed quantity-based pricing structure is outlined below.

Important: The final per-piece price depends on the product, materials, customization, quantity, and confirmed order specifications. The indicated percentage reductions must be confirmed by the manufacturer before publication and should not be treated as guaranteed discounts on every order.

Order Quantity	Indicative Price Reduction	Pricing Basis
Sample Order	Standard sample quotation	Quoted according to sample requirements and development costs
15 - 20 Pieces	10 - 20% lower	Subject to the confirmed product and order quotation
21 - 50 Pieces	Up to 30% lower	Subject to the confirmed product and order quotation
51 - 69 Pieces	Custom quotation	Discount to be confirmed
70 Pieces and Above	Up to 45% lower	Subject to the confirmed product and order quotation

Our Payment Terms

We discuss payment arrangements according to your order requirements, sample approval, production schedule, and agreed quotation.

- **Sample Orders:** Sample charges are quoted separately according to the product and customization requirements.
- **Bulk Orders:** Bulk pricing and payment arrangements are confirmed before production begins.
- **Custom Products:** Material selection, branding, and other specifications are agreed upon before order confirmation.
- **Order Confirmation:** The quotation, quantity, specifications, payment schedule, and estimated production timeline are documented and approved by both parties.
- **Additional Costs:** Shipping, packaging, and other applicable charges are clarified in the quotation.
- **Repeat Orders:** Pricing and payment arrangements are confirmed according to the new order requirements.

Please contact us for a product-specific quotation and the payment terms applicable to your order.

MOQ (Minimum Order Quantity)

We understand that starting a new brand requires flexibility and manageable investment. That's why we offer low MOQs to help new brands and growing businesses get started. Motorcycle jackets typically start from ***5 - 10 pieces,*** while MOQ for gloves and other products depends on the product type and customization requirements. Contact us to discuss a quantity that works for your business.
